Women's and Misses'
Trelaine Skirts
at 12.75

are so entirely new both in fabric, and in the "wrap-around" model that many women will hail them as a welcome variation in the realm of the separate skirt. Trelaine has instantly taken a pre-eminent place among the new materials, and rightly so, for it is light, softly fleecy, and comes in a host of pastel shadings. The clever model pictured may be had in tan, brown, gray, orchid, and blue mixtures.
